

Ahurutanga *Creating a safe place to be part of*

A Safe Place

**A Place where you can express
yourself freely without being
judged or ridiculed.**

**A place where you are able to
engage in and undertake activities
in an ethical and meaningful way**

Ahurutanga *Creating a safe place to be part of*

The Kauri provides shelter and a safe place to many life forms.

The fifth layer is creating an environment where people feel safe and comfortable. Ahurutanga is an internal and external safe place to be yourself, without interference of your thinking when processing information and decision making.

Ahurutanga is displayed when people feel safe, valued and have choice of where they go and who with.
